**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Dresch (46,672) on 10/26/05.

The application has been amended as follows:

Please amend claims 1 and 44 as shown in the attached amendments to claims.

***Allowable Subject Matter***

2. Claims 1-8, 10-31, and 33-44 are allowed.
3. The following is an examiner's statement of reasons for allowance:

In regard to claims 1-8, and 39-41, the prior art does not disclose a photo service system with the combination of limitations specified in the claimed invention, specifically the limitations of:

a photo service center which prints the images according to the image data received by the base station and sorts the prints of the images according to the identification information received with the image data, wherein the photo service center identifies the prints of the images based on a location corresponding to the base station that transmitted the image file, as claimed in claim 1.

In regard to claims 10-30, 33-38, 42, and 43, the prior art does not disclose a photo service system and a photo service method with the combination of limitations specified in the claimed invention, specifically the limitations of:

a photo service center which prints the images according to the image data received by the at least one base station and sorts the prints of the images according to the identification information received with the image data, wherein the photo service center identifies the prints of the images based on a location corresponding to the respective at least one base station that transmitted the image file, as claimed in claim 10.

In regard to claim 31, the prior art does not disclose a photo service system with the combination of limitations specified in the claimed invention, specifically the limitations of:

a photo service center which prints the images according to the image data received by the at least one base station and sorts the prints of the images according to the identification information received with the image data, wherein the at least one base station receives the image data and the identification information based on a proximity of the at least one digital camera to the least one base station, as claimed in claim 31

In regard to claim 44, the prior art does not disclose a photo service system with the combination of limitations specified in the claimed invention, specifically the limitations of:

a photo service center that automatically prints each image upon receipt of the image data of each captured image by the base station and sorts the prints of the images according to the identification information received with the image data, and identifying
